PROJECTS

1. **Residential Society Management Application| September 2022 - December 2022**
   This is a Residential Society Management Application. Using this application, the society management staff can create new Members and track their Maintenance records. The maintenance object keeps a track of the members who have paid the maintenance amount and which members nave their maintenance amount due. Staff can also send mail to the Members reminding them to pay the society maintenance fee. On receiving the amount an acknowledgement message is sent to the member. Security guards can use the visitor object to enter data of all the Visitors that pay a visit to the members of the Society in a day and maintain all the details such as relationship with the member, contact details, and reason for the visit.
2. **Project management application | September 2022- December 2022**
   This is a Project Management Application. Using this application, a company can manage the lifecycle of their Projects; they can create Client and Project records and maintain the relationship between them. The project manager has the authority to create new Requirements and assign tasks to the employees. Project manager can track the progress of the project and the tasks allocated to the employee The release object can be used to send a mail to the manager and the client to inform them about the release of the new feature or project.

WORK EXPERIENCE: Team leader in Sonalika Tractors (ITL) from (Jan'22 – Dec'22)
